

The Wisconsin "Do Not Call" phone list has been fabulous! It has dramatically reduced the interruptions and unwanted solicitations. Now if the phone rings, we know it will be someone we actually wish to speak to. (Except of course during the campaign season....we did get numerous calls from political groups seeking to survey our household. I understand this is an exemption from WI law.) Please do not amend the law so that those I have done business with in the past can call me. If I want to do business with them again, I can call them.
